MOBOTIX

MOBOTIX AG is a German software company with in-house hardware development for digital, high-resolution and network-based video security solutions. The company focuses on the development of user-friendly, complete system solutions from a single provider. MOBOTIX AG is known as the leading pioneer in network camera technology since the founding in 1999.

Tried And Proven in 100,000 Applications – Maximum Reliability

Over 100,000 MOBOTIX systems are in use successfully throughout the world. These cameras operate resiliently around the clock. From -30 to +60 °C (-22 to +140 °F).

Complete Solution – Everything from a Single Source

MOBOTIX offers the cameras, data storage for video recordings and video management software for a complete monitoring system.

Less Cameras – Lowest Procurement Costs

High-resolution images deliver more detail. Thus, fewer cameras are needed overall.

IT Standard – Lowest Installation Costs

MOBOTIX cameras can be connected to low-cost standard IT components in the same way a printer is connected to a computer network.

Software Included – Lowest Operating Costs

The camera includes software with no restrictions or additional fees or licensing costs. Each camera consumes just 3 to 4 watts, which means very low power consumption.

No Mechanical Moving Parts – Lowest Maintenance Costs

Weatherproof and robust housing with no mechanical moving parts ensure a long service life and no maintenance expenses.
